

FACILITATION

Seize the Day! Discover the Power of an Inside Moves Facilitation!

Your Company's Answer for:

- Creating a Vision and/or Mission Statement
- Re-Directing Current Goals and Objectives
- Adapting to Change and Finding Your Compass
- Brainstorming and Developing Out-of-the-Box Thinking
- Producing Effective Technology Forums or Conferences
- Establishing Action Plans and Follow-up
- Deciding on Milestones and Benchmarks to Measure Success

Our facilitation process begins by conducting an advance interview and/or survey. We talk to your company's leadership to pin down the overall goals and objectives to be achieved at the planned group meeting. Once this is determined, our Inside Moves Team then custom designs workshop sessions and topical modules to fit the interview/survey findings. The overall focus of our Inside Moves facilitation team is to create a productive and stimulating work environment for participants to self-discover the solutions to meet all pre-determined goals and objectives. Inside Moves' overall mission is to leave your attendees empowered and motivated "to make a difference"! We take your great ideas, weave them into believable stories to ensure your team gets winning results!

What Makes Us Different?

Our facilitators are infused with an ability to inspire and encourage the teams we are assigned to. We know what it takes to stand up and deliver. Our facilitators bring real life experiences and lessons learned from having worked on workshops and technology sessions for some of the biggest federal contractors the industry. Inside Moves facilitators brings a passion and energy to the process that gets your people talking, working out-of-the-box and solving the challenges of the day.

Our Guiding Principles:

- "The Only Way Out is Through"
- "Argue Your Limitations and They Are Yours"
- "The Universe Rewards Action!"

Ask Us About:

- Proposal Development
- Team Building/Special Workshops
- Multimedia Support

Ideas ➡ **Stories** ➡ **Results**
